CERTIFICATE

This is to certify that the project report entitled "**Chitti Robot**" that is submitted by **G.Lohitha** bearing Roll No **23M61A0521** in partial fulfillment for the award of the Degree of Bachelor of Technology in **COMPUTER SCIENCE AND ENGINEERING** to the Jawaharlal Nehru Technological University is a record of bona fide work carried out by him under my guidance and supervision. The results embodied in this project report have not been submitted to any other University or Institute for the award of any degree.

Head of the Department:

Dr. Supriya Menon

HOD & Associate Professor

External Examiner:

Dr.Raja Kumar M.Tech,Ph.D

RESEARCH & DEVELOPMENT Pvt. Ltd.

PROJECT CERTIFICATE

This to certify that **G. LOHITHA**, bearing the Roll No **23M61A0521** from **SWARNA BHARATHI INSTITUTE OF SCIENCE AND TECHNOLOGY**, has successfully completed the project titled "**CHITTI ROBOT" in** the domain of **EMBEDDED C (IOT BASED)** at AVR RESEARCH AND DEVELOPMENT PVTLTD. During the course of the project, **CHITTI ROBOT** was exposed to a variety of processes and consistently demonstrated diligence, hard work and an inquisitive mindset.

We extend our best wishes for continuous success in all future endeavours.

FOR AVR RESEARCH AND DEVELOPMENT PRIVATE LIMITED

Authorized Signatory

ACKNOWLEDGMENT

The satisfaction that accompanies the successful completion of any task would be incomplete without the mention of the people who made it possible and whose constant guidance and encouragement crown all the efforts success.

I thank my guide **V. Akshith Nag** for his / her support in completion of my Project Work. I wish to express my sincere thanks to Head of the Department **Dr. M. Supriya Menon** and also to my Principal **Dr. G. RajaKumar,** for providing me the facilities to complete the Project Work.

I would like to express my sincere gratitude to **Mr. G. Praveen Kumar**, Director, SBIT for his consistent encouragement and support throughout the Project work.

Last but not least, I express my heartful thanks to all my staff and friends for their constant support, encouragement and valuable contribution in the completion of this Project Work. My sincere thanks to **Sri. G. Krishna**,Chairman, SBIT and **"AVR RESEARCH &DEVELOPMENT PVT.LTD"** the members of the organization.

G.Lohitha - 23M61A0521

DECLARATION

I hereby declare that the mini project entitled "**Chitti Robot**" is a Bonafide work carried out at the **SWARNA BHARATHI INSTITUTE OF SCIENCE & TECHNOLOGY**", Khammam during the B.Tech Course.

Date:

Place: Khammam

G.Lohitha – 23M61A0521

ABSTRACT

The rapid advancement of the Internet of Things (IoT) has enabled the development of intelligent robotic systems capable of remote monitoring and control. This project presents the design and implementation of an IoT-based “Chitti Robot,” a smart robotic system inspired by human-assistive automation. The robot is equipped with sensors, a microcontroller, and wireless communication modules that allow it to interact with its environment and be controlled over the internet. The proposed system uses IoT technology to enable real-time data transmission and remote operation through a mobile application or web interface. The robot can perform tasks such as obstacle detection, environmental monitoring, and basic object handling. By integrating components like ultrasonic sensors, cameras, and Wi-Fi modules, the robot achieves efficient navigation and communication.

This project demonstrates how IoT can enhance robotic capabilities, making them more accessible and versatile for applications in surveillance, healthcare assistance, industrial automation, and smart homes. The Chitti Robot serves as a prototype for future intelligent robotic systems that combine artificial intelligence and IoT for improved functionality and user interaction.

- Web Application

TABLE OF CONTENTS

S.NO	TOPIC	PAGE NO
1	**Introduction**	4-10
1.1	Purpose	6-7
1.2	Scope	7-8
1.3	Objectives	8-9
1.4	Overview	10
2	**Literature Survey**	11-13
3	**System Analysis**	14-19
3.1	Existing System	15
3.2	Proposed System	16-17
3.3	Functional Requirements	17-18
3.4	Non-Functional Requirements	18
3.5	Feasibility Analysis	19
4	**System Analysis**	20-21
4.1	Hardware Requirements	21
4.2	Software Requirements	21
5	**System Design**	22-25
5.1	System Architecture	23-24
5.2	Unified modelling language diagrams	25
6	**System Implementation**	26-33
6.1	Experimental dataset	28-29
6.2	Input Design	29
6.3	Output design	30
6.4	Methodology	30-32
6.5	Modules	32-33

7	**Coding**	34-43
8	**Technologies**	44-46
8.1	Technologies used	45
8.2	Key features implementation	46
9	**Experimental Results**	47-48
10	**Conclusion**	49-50
11	**References**	51-53
